

CHELA BLUE TAB

An easy to use fully biodegradable, solid structure tab, for the prevention of scale & bacteria build-up in drain pans found in air conditioners, humidifiers and refrigerators. Eliminates potential health risks such as Legionnaires disease. Engineered with a 3 month control release function for 100% water solubility, it completely dissolves leaving no residual byproduct. Guaranteed to continuously clean and prevent drain pan clogging that causes overflow, which may result in costly damages.

WHERE TO USE :

- Can be used wherever commercial air conditioning units are commonly found
- Homes
- Retail establishments
- Manufacturing facilities
- Restaurants, hotels, schools & offices
- Food storage areas
- Refrigerated vans etc.

ADVANTAGES :

- Highly efficient drain pan treatment tablet
- Easy to handle, transport & store.
- Non corrosive, Non Toxic & Biodegradable
- Safe for personnel & the Environment
- Safe to use as directed in all types of pans (metal, fiberglass constructions & painted surfaces)

ASSOCIATED PRODUCTS :

CHELA Coil Safe - Powerful evaporator coil / filter cleaner, deodorizer & adhesive
